## Profile

I am a passionate and dedicated software developer with recent certifications in Level 6 Software Development and Level 5 Web Design and Development from Toi Ohomai - Te Pukenga. My transition from 12 years in the culinary industry into software development has provided me with unique problem-solving skills, attention to detail, and a strong capacity for collaboration. I am now eager to apply my skills in a Full Stack Software Development internship, contributing to innovative projects while expanding my experience in C#/.NET, REST API, MVC, and other core development areas.

---

## Technical Skills

- **Frontend Development:** HTML, CSS, JavaScript (responsive design, cross-browser compatibility, and accessibility standards).
  - **Backend Development:** PHP, SQL, CRUD applications, and foundational knowledge of C#/.NET.
  - **Frameworks and Libraries:** Experience with .NET framework (UWP), XAML for GUI, and MVC.
  - **Database Management:** SQL, MySQL, PostgreSQL, and Azure Data Studio.
  - **Programming Languages:** Proficient in C#, .NET, with experience in JavaScript and PHP.
  - **API Development:** Knowledge of RESTful API design and implementation.
  - **Development Tools:** VS Code, Git, GitHub, experience with Azure Cloud.
  - **Additional Skills:** Fluent in English and Portuguese; effective communicator and problem-solver.
- 

## Education

### Toi Ohomai - Te Pukenga

Level 6 Software Development

February 2023 - September 2024

Key Courses:

- **Web Services and Design Methodologies:** RESTful API, microservices, and scalable web services.
- **Interface Analysis and Design:** UX/UI principles, responsive design.
- **Application Testing and Maintenance:** Unit testing and automated testing methodologies.
- **Enterprise & Systems Analysis:** SDLC, CRM systems, and requirement gathering.

- **Capstone Project:** Collaborated on a real-world project, developing a software solution from start to finish, emphasizing clean code, scalability, and team-based development practices.

## Level 5 Web Design and Development

February 2022 - November 2022

### Key Courses:

- **Frontend and Backend Development:** Built responsive web pages with HTML, CSS, JavaScript, and server-side applications with PHP and SQL.
- **Interface Design:** Developed user-friendly interfaces with attention to accessibility and usability.
- **Programming Fundamentals:** Established a foundation in programming concepts and problem-solving techniques.
- **Algorithms and Data Structures:** Studied data structures like trees, graphs, and algorithms for sorting and searching.
- **Data Management:** Worked with relational databases and big data, including SQL and NoSQL.
- **Project Management:** Focused on Agile methodologies, resource allocation, and project life cycles.
- **Capstone Project:** Collaborated on a real-world project, applying all learned concepts to develop a software solution from start to finish.

---

## Projects

### Web Portfolio

- Developed a responsive web application using **JavaScript**, **HTML**, and **CSS**, improving user experience through interactive features and seamless navigation.

### Mobile App Development (Academic Project)

- Collaborated in a team to build a mobile application using **C#** and **XAML** with the .NET framework (UWP), integrating a web API and implementing efficient algorithms for optimized performance.

### Currency Converter Web Application

- Developed a currency converter application using a live currency price update **web API**, enabling users to get real-time conversion rates.

---

## Professional Experience

### Chef

*Trinity, Tauranga*

**March 2023 - Present**

- Ensured food freshness and quality by maintaining rigorous standards.
- Introduced new recipe ideas, enhancing menu creativity.

**Chef**

*Grill Deck, Tauranga*

**May 2022 - March 2023**

- Managed kitchen operations, ensuring compliance with health and safety regulations.

**Dispatcher**

*Gilmours, Tauranga*

**June 2020 - May 2022**

- Efficiently managed order dispatch and product deliveries, resolving issues with clear communication.

---

**Key Strengths**

- Strong analytical and problem-solving skills.
- Solid understanding of object-oriented programming and software development life cycles.
- Proven ability to collaborate in cross-functional teams.
- Continuous learner, passionate about staying updated with the latest industry technologies.
- Bilingual communicator, fluent in **English** and **Portuguese**.
